(54) RECORDING METHOD FOR RECORDING MEDIUM IMPROVED IN PERFORMANCE OF INTERACTIVE REPRODUCING PROGRESSION, REPRODUCING DEVICE AND REPRODUCING METHOD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a recording method for a recording medium improved in the performance of reproduction progression by a menu operation and a reproducing device and reproducing method for the same.

SOLUTION: The recording method for the recording medium includes a step of forming a video object and a step of recording the formed video object to the recording medium. The video object consists of plural units and the respective units include animation image data of prescribed time units, sub-video data to be reproduced simultaneously therewith and highlight information effective during the reproduction of the animation image data within the units to which the data belongs. The sub-video data is a menu image inclusive of plural buttons for display. The highlight information includes the commands by each of the buttons to be executed when the buttons attain a definite state with respect to the sub-video data within the same units and the exhibition information indicating the buttons to be inhibited of selection by the numeral key input of users.
